

Oak Lake Residents – Wastewater Systems

Wastewater Systems

- ✓ A key reason to maintain your wastewater treatment system is to save money.
- ✓ Wastewater system maintenance including pumping and inspection is the property owner's legal responsibility.
- ✓ Costs associated with regular maintenance of your wastewater system are much cheaper than repair or replacement.
- ✓ A working wastewater system adds value to your property.
- ✓ A properly functioning wastewater system is good for your family's health, the health of your neighbors and the environment.

Maintenance Tips

1. Pump your tank regularly.
(Holding tank systems annually, tank and leaching field systems 3 - 5 years)
2. Inspect your system (Yard on-and-around system for saturation, odor, etc.)
3. Keep records (System diagrams and service pump-out dates)
4. Call a licensed professional if unsure (See below)
